📋 Projects

4 Art Technologies	**Jan 2021 - Present (7 months)**

Company: Coeus Solutions Gmbh / Kai

https://www.4art-technologies.com

Tools: PHP Symfony framework

4art technologies is a digital artwork agency that digitalizes the artwork with highly secure way. The application available is in many platform such as IOS, Andriod & 3D unity and many more.

I worked on this project as a Symofny developer and developed many new features and optimized and improve the existing structure. My approach of development was always flexible and reusability of pre-developed structure/code. It's a Large and well define and comprehensive project. Mostly I developed the custom API in Symfony PHP framework.

Smart Widget	**Jan 2020 - Oct 2020 (9 months)**

Company: ekomi / Maurice fons

https://www.ekomi.com

Tools: PHP Symfony framework

Ekomi is a Berlin-based company that offers a review solution for both company and product reviews. They work with large enterprise clients such as Allianz, Axa, DHL and more. They provide a strong suite of tools to collect, display and leverage reviews across Google search results and advertising. I worked as Software Engineer & responsible to develop new feature and maintain existing functionality

Ekomi Product Owner feedback:

"I have worked with Noman at eKomi for about six months. Noman is a passionate developer, that worked at eKomi on a web-facing application (Symfony/PHP) that is implemented on the websites of thousands of customers. Noman managed to keep it cool at all times and delivered what was asked from him. He is eager to learn and growing each day"

copied from LinkedIn.

Govesta	**Jan 2020 - Mar 2020 (2 months)**

Company: Govesta / Dupont Mickael

https://govesta.co

Tools: PHP Symfony framework
